Aberdeen, Scotland, UK | [linkedin.com/in/mathew-jacob-kavalam](https://www.linkedin.com/in/mathew-jacob-kavalam) | m.kavalam.analytics@gmail.com

PROFILE

I am a Computer Science & Engineering graduate with an M.Sc. in Business Analytics. I have 4+ years of professional experience delivering data analytics to key business stakeholders. I have worked across the Microsoft Power Platform (Power BI), Microsoft Fabric, SQL and Python in cloud and on-prem. I hope the following record will demonstrate how I took on projects, learnt quickly and delivered real business value.

CORE COMPETENCIES

Data governance	Curated, governed datasets; medallion architecture; role-level security; on-prem enterprise gateway; data quality management
Data integration	ETL/ELT across Dataverse; Azure SQL and Microsoft SQL Server; performant view design; reliable refresh pipelines
Project delivery	KPI definition; stakeholder workshops; internal training; actionable dashboards; agile delivery; clear communication; conflict resolution; user guides; documentation
Azure	Azure Data factory; Azure Synapse SQL; Azure DevOps
Microsoft Fabric	Dataflows Gen2, Pipelines; Sustainability Industry Solution; Lakehouse; Delta Tables;PySpark notebooks
Power BI	Star schema modelling; DAX; Power Query; M Code; custom visuals with Charticulator; admin via PowerShell;embedding in Power Apps; enterprise connectors
Python	Scripting for validation and exception reporting; Machine learning based financial forecasting (LSTM) in academic work
SQL	Aggregate Functions;Common Table Expressions(CTEs);Stored Procedures;Views;Window Functions
Azure DevOps	Git Repository; Scrum Board; User Stories

EMPLOYMENT HISTORY

Power BI Developer, Harbour Energy

Scotland, July 2026 - Present

Part of the central data science team, which builds and maintains mission critical dashboards across the entire organisation, which follows state-of-the-art development tools and techniques, to ensure reliable continuous integration and delivery (CI/CD).

Role	Responsible for delivering and maintaining various mission critical executive and operational reports across the entire organisation.
Value delivered	Took ownership of one of the most widely used BI dashboard and have contributed to the team's development best practices documentation. Conducted team wide knowledge sharing sessions.
Tools &Technologies	Microsoft Fabric, Azure DevOps, Git, Azure Data factory, Azure Synapse SQL

Senior Data Analyst, Robert Gordon University

Scotland, Sep 2025 - Nov 2025

Delivered accurate, consistent and governed HR datasets, modernising reporting and enabling reliable,curated analytics across the university’s HR domain. Trained the internal team of data analysts.

Project	RGU HR Analytics - HR data curation and reporting across workforce, recruitment,absence and establishment.
Role	Data Analyst responsible for modernising the HR analytics stack.
Value delivered	Translated legacy Excel reports to modern Power BI stack with governed curated layers. Introduced realtime dashboards replacing CSV dumps; recommended standard KPIs and ran stakeholder workshops for alignment and prioritisation. Automated validation and exception reporting using SQL/Python, improving reliability and data quality for downstream consumers.
Tools &Technologies	Microsoft Fabric (Dataflows Gen2, Pipelines), Power BI (RLS, custom connector), SQLServer/T-SQL, Python, On-prem enterprise gateway.

Data Analyst, EY India

India, Oct 2020 - Aug 2024

Delivered actionable insights for EY UK clients and ensured reliable, performant reporting across large transactional datasets.

Project	EY Net Zero Transformation sustainability analytics product from EY.
Role	Power BI developer responsible for implementing the reporting module.
Value delivered	Built and enhanced ETL/ELT workflows consolidating disparate sources into analysis ready schemas; delivered performant Power BI dashboards. Collaborated on Power Apps workflows to streamline operational processes; improved refresh reliability and governance.
Tools &Technologies	Microsoft Fabric Sustainability Industry Solution, Medallion Architecture, Lakehouse,Delta Tables, PySpark notebooks, SQL Server/SQL, Dataverse/Azure SQL, Power BI,Power Apps, Agile project delivery using Azure DevOps

EDUCATION

M.Sc. Business Analytics, Robert Gordon University

Scotland, Sep 2024 - Sept 2025

Modules	Data analysis, data visualisation, database modelling, programming and predictive analytics.
Dissertation	Stock Price Co-movement & LSTM Forecasting - Python.

B.Tech. Computer Science & Engineering, APJ Abdul Kalam Technological University

India, Sep 2016 - Jul 2020

Modules	Database Management Systems, Advanced SQL, Data Structures & Algorithms, Software Engineering, Probability & Statistics.
---------	--

CERTIFICATION

Microsoft Data Analyst Associate
